PRODUCT CARE RECOMMENDATIONS

CONTENTS AND TERMS OF THE FACTORY GUARANTEE

PRODUCT CARE RECOMMENDATIONS

Proper regular care and upkeep is necessary to ensure the continued high quality of Mamoli taps. Our recommendations:

- always dry the tap fittings with a soft cloth or chamois to prevent the formation of calcium deposits
- use a neutral liquid soap diluted in water for cleaning
- never use liquid detergents that contain abrasive substances, such as vinegar, ammonium, acetone, bleach, domestic cleaning acids or certain disinfectants. Products like these should not even be used for cleaning the sanitary fixtures in the vicinity of the installed tap.

RECOMMENDATIONS FOR MAINTENANCE

Decalcification: calcium and dirt buildup in the aerator filters may be removed by disassembling the aerator, immersing it in diluted vinegar (maximum concentration of 10% at 20°C) and allowing it to soak for several hours. Afterwards, wash it with soap and water and rinse.

Spare parts: we recommend using original Mamoli parts only, available through authorized retailers.

Mamoli Robinetteria S.p.A. guarantees final users against manufacturing defects in the products found on its price list pursuant to and in accordance with the following terms and conditions.

- 5-year guarantee from the date of purchase for casting and/or porosity defects, unless attributable to improper maintenance by the user. See the product care recommendations indicated below.
- 5-year guarantee from the date of purchase for chroming defects, unless they are attributable to improper maintenance by the user. See the product care recommendations indicated below.
- 2-year warranty from the date of purchase for all finishes other than chrome.

The warranty covers the product life only if it is used in accordance with the instruction supplied. Concerning this point see product care instruction.

- 5-year guarantee from the date of purchase for defects related to the functioning of cartridges and thermo-static elements
- 2-year guarantee from the date of purchase for defects related to the functioning of gaskets, o-rings or the comm. and components of electronic and time-delay taps.

The guarantee only becomes applicable upon presentation of the original guarantee voucher (included in every package), which must bear the retailer's stamp indicating the date of purchase and be accompanied by the receipt or some other proof-of-purchase document. Moreover, the guarantee is only applicable if Mamoli receives notification within twenty days of when the functional defect is first discovered, and it may only be activated within six months after notification has been received.

The guarantee does not apply to cases in which defective operating is attributable to post-purchase events that are in no way attributable to Mamoli, such as:

- improper installation of the product
- performance of repairs or maintenance by unauthorized personnel
- malfunctions attributable to shortcomings or defects in the system that the Mamoli products were connected to
- deterioration of non-chrome finishing whose duration is dependent on user upkeep and maintenance
- deterioration of the tap or parts of the tap that is dependent on water quality (e.g., presence of calcium).

If the product is defective and the warranty is applicable, Mamoli shall make the final decision about whether to replace or repair the product or non-conforming parts thereof or to refund the purchase price.

The present conventional guarantee relieves Mamoli of any and all liability for its products and in particular any liability for any direct or indirect damage derived from variations in the products themselves. Mamoli accepts responsibility for the safety of its products pursuant to the current laws on manufacturer liability.

The present guarantee does not apply to present or future products that have been explicitly associated with a separate and distinct guarantee.
